FAVORITE THING TO DO OUTSIDE OF SCHOOL AND VOLLEYBALL

Hanging out with friends.

WHAT I WILL REMEMBER IN 20 YEARS?

I will remember all the memories I made with my teammates, the laughs we shared, the friendships we built, and all the moments that made playing volleyball so special. Even when we are older and have moved on to different parts of our lives, when volleyball is mentioned I will look back on these years with a smile.

MY ADVICE FOR THE NEXT GENERATION OF WHITEFORD VOLLEYBALL

My advice is to enjoy every moment and never take the experience for granted. Volleyball can get stressful, and winning is exciting, but at the end of the day, it is just a game. Have fun, support your teammates and make memories. Always remember that the people beside you and the memories you make are just as important as the game itself.

FAVORITE VOLLEYBALL MEMORY

My favorite volleyball memory is our trip to the dunes, especially when Rilee got pooped on by a bird. It was such a funny moment, and we all laughed so hard. Memories like that remind me that volleyball is about more than just playing the game. It is about the friendships, the laughs, and the moments together that we will talk about for years.

PLANS AFTER HIGH SCHOOL

I plan to attend UT for nursing

FROM COACH VALDEZ

"These three seniors have been the most amazing teammates. They have truly led by example all year and are some of the most positive kids I've had the pleasure to coach. We truly have great kids here at Whiteford and these are three of the absolute best. I hope they know they will always have this coach in their corner, cheering them on wherever life takes them. I have no doubt they will make Whiteford proud."
